Proposal 5: Amendment of amounts of performance-linked share-based compensation, etc. for Directors, etc.

1. Reason for amendment and reason for setting the current compensation

In the 90th General Meeting of Shareholders held on June 25, 2019, the shareholders approved a share-based compensation system (hereafter “this system”) in which Directors (excluding Outside Directors and non-residents of Japan; the same applies throughout this proposal) and Executive Officers (excluding non-residents of Japan; hereafter referred to collectively with Directors as “Directors, etc.”) shall be granted stock in the Company or paid cash equivalent to the estimated value of the stock (hereafter “stock in the Company, etc.”) according to criteria such as accomplishment of business targets. This system has now been introduced. This proposal requests the continuation of this system with partial amendments.

A Policy for Decision of Details of Matters Such as Officer Compensation was established at the Board of Directors meeting on April 25, 2019. If this proposal is approved, the Company intends to change these details according to “(Reference) Policy for Decision of Details of Matters Such as Officer Compensation (if Proposal 5 is approved)” on pages 19 to 20 of the Reference Documents for the General Meeting of Shareholders.

The purpose of the amendment of this system is to increase the ratio of share-based compensation, which is linked to business results, in compensation for Directors, etc., and, in doing so, raise awareness of medium- to long-term improvement of the Company’s business results and contributing to increasing our corporate value, and to comply with the Policy for Decision of Details of Matters such as Officer Compensation established by the Company. As such, we believe that this amendment is appropriate.

The amended system will apply to four directors of the Company if Proposal 2: Election of eight (8) Directors is approved as stated.

This system also applies to Executive Officers and compensation paid according to this system includes compensation of Executive Officers. As the applicable Executive Officers may be newly appointed as Directors during the period of this system, this proposal proposes amendment of the amounts and details of all compensation under this system. On closing of this General Meeting, this system shall apply to 13 Executive Officers who are not also Directors.

2. Details, etc. after amendment of this system

(1) Overview of current system

This system is a share-based compensation system in which shares in the Company are acquired through a trust as capital for Director compensation to be paid by the Company and shares in the Company, etc. are granted according to points awarded to Directors, etc. according to their rank and the degree to which they accomplish business targets.

(2) Details of amendment of the system

As this system is continued, the following parts of the original system will be amended.

1) Maximum amount paid by the Company

Before amendment	After amendment
For 5 business years <u>420 million yen in total</u>	For 5 business years <u>1.2 billion yen in total</u>
[Reason for amendment of this item] The maximum amount of share-based compensation linked to business results will be increased to increase consciousness of medium- to long-term improvement of the Company’s business results and contributing to increasing our corporate value and to facilitate medium- to long-term growth of the Company and share stakes with our shareholders.	

2) Maximum shares in the Company to be granted, etc. to Directors, etc.

Before amendment	After amendment
Maximum total number of shares in the Company, etc. to be granted, etc. to Directors, etc. for 5 business years <u>300,000 shares*1</u>	Maximum total number of shares in the Company, etc. to be granted, etc. to Directors, etc. for 5 business years <u>600,000 shares</u>
Maximum total points to be awarded to Directors, etc. for each business year <u>30,000 points*2</u>	Maximum total points to be awarded to Directors, etc. for each business year <u>60,000 points*2</u>

(Reference) This equates to 60,000 common shares in the Company	(Reference) This equates to 120,000 common shares in the Company
*1	This reflects the splitting of each common share into two shares effective October 1, 2023.
*2	As a result of *1, the number of shares to be granted per point has been adjusted to two common shares in the Company.
[Reason for amendment of this item]

(Reference) Policy for Decision of Details of Matters such as Officer Compensation (if Proposal 5 is approved)
 The Policy for Decision of Details of Matters such as Officer Compensation was established at the Board of Directors Meeting on April 25, 2019. If Proposal 5 is approved, the Policy for Decision of Details of Matters Such as Officer Compensation will be changed as follows.

1) Policy for Decision of Details of Matters such as Officer Compensation

Basic Policy

■ Compensation, etc. for Directors (excluding Outside Directors)

Compensation, etc. for Directors (excluding Outside Directors) shall be subject to the following basic policy as an incentive plan for the realization of the Group’s targets.

- Must be closely linked to the Company’s business results and be highly transparent and objective
- Must raise awareness of medium- to long-term improvement of the Company’s business results and contributing to increasing our corporate value
- Must focus on sharing awareness of profits with shareholders and increasing emphasis on shareholders in business decisions

Under this basic policy, compensation, etc. for Directors (excluding Outside Directors) shall comprise base compensation, bonuses and share-based compensation, and shall be decided on judgment by the Nomination and Compensation Committee to ensure fairness and transparency in Director evaluations and compensation decisions.

■ Compensation, etc. for Outside Directors and Corporate Auditors

Compensation, etc. for Outside Directors and Corporate Auditors shall consist only of base compensation to improve our function for the supervision of our management. Moreover, base compensation for Corporate Auditors shall be decided on discussion with Corporate Auditors, taking into account factors such as the nature of each Corporate Auditor’s work.

2) Reason why the Board of Directors judged that the nature of the compensation, etc. for each Director is consistent with the decision policy

The Company decides on the nature of compensation, etc. for Directors according to the above procedure and decides the amount of compensation for each Director based on a verification using comparisons with compensation paid by other companies of the same size, primarily in the same industry, according to the results of third-party investigations, taking into account objective input and advice from the Nomination and Compensation Committee, upon verifying that the amount is consistent with our basic policy on deciding compensation, etc. for Directors. Therefore, the Board of Directors has judged that the nature of the compensation is consistent with the decision policy.

3) Composition of compensation

The approximate ratio of base compensation, bonuses and share-based compensation for Directors is decided by the Board of Directors based on objective input and advice from the Nomination and Compensation Committee, upon verifying that the ratio is appropriate according to our basic policy on deciding compensation, etc. for Directors.

The approximate composition of compensation is as follows.

Composition of compensation (reference)

Base compensation 65%	Bonuses 20%	Share-based compensation 15%
-----------------------	-------------	------------------------------

Overview of compensation

Base compensation

Base compensation for Directors is a total of compensation based on each Director’s position and compensation based on the Director’s role in execution of our operations. The level of this compensation is decided by the Board of Directors using the results of a third-party investigation, based on objective input and advice by the Nomination and Compensation Committee, upon verifying that the nature of the compensation is appropriate.

****Compensation linked to business results****

For business metrics and calculation method for compensation, etc. linked to business results, a system has been introduced to decide the amount of compensation linked to business results based on the degree to which operating income, the main business indicator set in our Medium-term Management Plan, is achieved in the fiscal year in question, along with the degree to which the individual contributed to those results and the state of metrics such as net profit for the period. The level of this compensation is decided by the Board of Directors using the results of a third-party investigation, based on objective input and advice by the Nomination and Compensation Committee, upon verifying that the nature of the compensation is appropriate.

Bonuses	The bonus to be paid, based on the degree to which the company-wide operating income target is achieved, is calculated by setting a base bonus amount as a multiple of each officer's compensation baseline. The Representative Director then multiplies this by a bonus rate based on the level of accomplishment by each class of officers, taking into account company-wide results (revenue from ordered projects, revenue from completed products, operating income) and other company-wide results, departmental results, etc., to which each Director has contributed. (Excludes Outside Directors)
Share-based compensation	The rate of compensation to be paid, based on the degree to which Group-wide targets for operating income and net income attributable to shareholders of the parent for the period were accomplished, is multiplied by the baseline share-based compensation for each position and then divided by the base share price to calculate points, which are then multiplied by two shares to calculate the payment. (Excludes Outside Directors and non-residents of Japan)
